ELBURG YACHTING®

international yachtbrokers

This stylish Hellingskip 1300, designed by Vripack, is offered for sale by her Dutch owner and combines excellent cruising characteristics with a high level of onboard comfort. Powered by a reliable 135 HP Perkins diesel engine, she is equipped with hydraulic bow and stern thrusters. Thanks to the Hydronautica remote control, both thrusters and the electronic engine controls can be operated with ease, making manoeuvring exceptionally simple. In addition, the yacht features a comprehensive navigation package including an autopilot, radar, chart plotter and rudder angle indicator. The spacious and bright saloon features a sliding roof, a comfortable companion seat and double doors leading to the generous aft cockpit. Thanks to the flush, single-level layout, the saloon and cockpit flow seamlessly into one another, creating an open and spacious living environment. The yacht is further equipped with solar panels, double stainless steel guard rails, davits and a lowering mast, allowing easy access to waterways with limited bridge clearance. Forward, the owner's cabin offers a freestanding double bed and an en-suite bathroom with a separate shower. The yacht also features a guest cabin, a second electric toilet and a Kabola central heating system throughout the vessel, which can even be operated remotely via a smartphone. This makes the Hellingskip 1300 an ideal yacht for extended cruising and comfortable onboard living throughout the season. The ship has been in the insulated indoor storage every winter. For questions and/or making an appointment, you are welcome 7 days a week at Elburg Yachting.
